Number 56 | January 2024

OME Features

NITROCHARGER SPORT SHOCK ABSORBERS

LARGE BORE 35MM TWIN TUBE DESIGN

Allows greater oil volume for cooling and sustained valving performance and strong 1.6mm outer tube construction protects the vital internal components from damage.

LARGE 18MM HARDENED CHROME PISTON ROD

Strong enough to handle any load or harsh conditions expected from your 4x4.

TRIPLE LIP CHECK VALVE OIL SEAL – MK2

The latest technology in oil seal design – physically larger with quantum improvements in durability, oil and gas retention with much greater resistance to heat so it keeps working under the harshest conditions.

TEFLON-IMPREGNATED LOW FRICTION ROD GUIDE

The latest refinement in rod guide design further reduces heat build-up and maintains performance.

TEFLON-INFUSED BRONZE ROD GUIDE SLIP RING

A new component that maintains consistent and uniform performance by providing a tight and uniform fit between the piston rod and rod guide.

MULTI DEFLECTIVE DISC VALVING SYSTEM

A unique and new valving system that features multiple disc valving control at the base of the shock and on both sides of the piston rod. This allows the OME engineers more valving options for better ride quality and handling control.

35MM HIGH FLOW TEFLON-BANDED PISTON

New low friction design has less restrictive oil flow through the piston, reduces heat build-up and aeration of the oil that leads to fade.

VEHICLE-SPECIFIC VALVING

OME shock absorbers performance stand head and shoulders over its competitors because many hours of OME engineering valving work have been put into each and every shock absorber to ensure our customers get the best ride and handling their vehicle can have.

POLYETHYLENE DIRT SHIELD

Impact-resistant, polyethylene dirt shield provides additional protection from stone chips and off road debris.

NITROGEN GAS

Increases the temperature operating range and improves oil flow through the valving, ensuring optimum performance.

SUPPLEMENTARY WELDS

For strength and reliability, all mounts have supplementary welds.

NITROCHARGER SHOCK ABSORBERS

GIANT 18MM CHROMED SHAFT

Indestructible for Australia's rugged off roading. Induction hardened then hard chromed to a superfine finish.

NITROGEN GAS

The gas pressure keeps the oil cohesive under all situations.

TWIN TUBE DESIGN

33% thicker outer tube insures that rocks do not damage internal operating components. This design also allows for a greater volume of oil, which keeps the shock cooler.

35MM SEVEN STAGE COMPRESSION VALVE

Delivers all the subtleties of compression rates for the best ride and handling.

CHECK VALVE SEAL

The latest in seal technology, this shaft seal significantly improves gas retention whilst offering excellent longevity.

GLACIER BUSH

A Teflon-coated rod guide bush significantly reduces heat build-up in the rod guide area, developed from the Emu's off road racing program.

GIANT 35MM TEFLON-BANDED PISTON

A new four-stage coil-sprung rebound valve system to control vehicle bounce.

SUPPLEMENTARY WELDS

On all mounting eyes and pins for maximum shock absorber mount strength.

STONEGUARD

Protects oil seal and piston rod against stone and dirt damage.

X5K MICRO-ALLOYED SPRING STEEL

New generation high strength spring steel grade designed to withstand higher operating stresses with superior resistance to sag and improved toughness and corrosion fatigue properties.

COIL SPRINGS

SHOT-PEENED

To reduce stress, which greatly enhances spring life.

DOUBLE-SCRAGGED

To eliminate spring sag.

VARIABLE AND CONSTANT RATE

Designs used to obtain optimum ride comfort and load-carrying capabilities.

COIL SPRUNG 9 STAGE VALVING

For optimum performance.

STEERING STABILISERS

35MM PISTON & BORE

Greater oil volume giving better damper performance.

TWIN TUBE DESIGN

Protects the internal components against stone damage.

STEEL STONEGUARD

Protects the piston rod against stone damage.

FOAM CELL

Keeps the oil at the valving to prevent fade.

ORIGINAL MOUNTS

All mounts are of similar design to original stabilisers for ease of fitment.

LEAF SPRINGS

FLAT AXLE SEAT AREA

Lowers spring stress whilst retaining spring-free camber height. Unique to most OME springs.

ANTI-FRICTION INTERLEAF LINERS

Used where applicable to reduce friction between spring leaves, giving better ride comfort and increased spring life.

SHOT-PEENED

On the tension side of all leaves to double spring life.

DRAW-TAPERED & DIAMOND CUT LEAVES

For reduced interleaf friction and improved load distribution in the load-bearing area.

GRAPHITE-COATED

For further reduced friction.

MILITARY-WRAPPED

For extra safety (where fitment permits).

LOOSE-CLAMPED

For smooth and quiet operation.

URETHANE BUSHES - LEAF SPRING

PREMIUM GRADE

Not all bushes are the same - OME bushes are precision moulded in captive moulds to ensure exact tolerances for long bush life.

SPLINES

Ensures the best fit by taking up irregularities in spring eyes.

UNIQUE OME DESIGN

Clever lip seal and shoulder design prevents dirt penetrating between bush shoulder and shackle face.

GREASEABLE SHACKLES

REDUCED WEAR

Greasable shackles reduce shackle pin deterioration, increase bush life, enable easy maintenance and improve ride and handling.

ANTI-INVERSION FACILITY

Built-in feature on all LandCruiser greaseable shackles.

SERVICING

Simple and effective.

WARRANTY

GUIDE TO SELECTION

Terminologies & Explanations

Please note most suspension development has been carried out on Australian specification models. Therefore, some differences may exist between the same model in another country. Overseas customers will need to make allowances for these possible differences.

Supplying all items shown on suspension selection charts will ensure the system can be fitted, however, there will be vehicles which will not require all items, eg. trimming kits, caster kits, all U bolts shown, etc. Actual, individual vehicle requirements can only be determined when the suspension system is fitted.

Vehicle Region:

Domestic (AUS)	Indicates the suspension was developed in Australia on an Australian vehicle, compatibility outside of Australia will need to be confirmed.
International (USA)	Indicates the suspension was developed in the USA on a USA vehicle, compatibility outside the USA will need to be confirmed.
Global	Indicates the suspension was developed in Australia on a Global platform, it is still recommended to confirm compatibility outside of Australia.

GVM - GROSS VEHICLE MASS: Set by the vehicle manufacturer and is determined by brake, axle, differential and tyre specifications. Exceeding GVM ratings can have legal and safety implications and is not recommended.

LOAD RATING:

FRONT: Weights shown are maximum permissible loads with regard to accessories fitted, eg. Bull bar, winch, dual battery, etc.

REAR: The explanations below indicates the passenger and load weights that will provide optimum ride and handling.

LIGHT LOAD: Full passenger load with luggage weights up to 150kg.

MEDIUM LOAD: Full passenger load with luggage weight varying from 200kg to 350kg.

HEAVY LOAD: Full passenger load with luggage weight varying from 350kg to 500kg.

CONSTANT LOAD: The minimum constant load shown on selection chart is required for optimum spring performance.

Please note: These loads are approximate only. Refer to individual vehicle selection for load specifications.

LIFT HEIGHT: Is shown as a guide only and equates to the amount of lift over the vehicle's original ride height. This amount can vary from vehicle to vehicle.

OE: Original Equipment, as supplied by the manufacturer of the vehicle.

***SHOCK ABSORBERS*:** Where two part numbers are given for the same application the part with the asterisk (*) indicates the shock absorber with the firmer ride.

SPRING BUSH: OME polyurethane spring eye bushes on installation must only be greased in the bore and on the flange area and regularly thereafter with OME polyurethane grease.

STEERING STABILISER: Designed as a larger capacity replacement for the OE part and incorporates 50/50 neutral valving.

CASTER KIT: The OMECA77B, CALR1 and CALR2 kits consist of 4 eccentric bushes which are pressed into the leading arms of the vehicle. This will induce positive caster into the front geometry.

LEAF SPRINGS: A & B springs can be used to compensate for uneven vehicle weight distribution. Springs marked "A" have a greater camber height than springs marked 'B'. 'A' type springs are generally fitted to the driver's side and 'B' springs to the passenger side. Where two spring rates are listed for one spring the spring is progressive.

COIL SPRINGS: A & B springs are used to compensate for uneven vehicle weight distribution. 'A' type springs are generally higher in free high than the 'B' spring. Individual coil specifications are listed in the back of this publication. Where two spring rates are listed for one spring the spring is progressive.

GEARBOX PACKER KIT: Designed to space down the gearbox cross member from the chassis to reduce tail shaft flange angle thereby reducing driveline vibration.

GREASABLE SHACKLES: Replacement for original shackles allow easy regular greasing of polyurethane spring eye bushes.

TRIM PACKERS: The prime purpose of a trim packer is to correct slight vehicle leaning.

VEHICLES WITH LEAF SPRINGS UNDER SLUNG: Trim packer when fitted will reduce suspension height.

VEHICLES WITH LEAF SPRINGS OVER SLUNG: Trim packer when fitted will increase suspension height.

VEHICLES WITH COIL SPRINGS: Polyurethane trim packer main purpose is to correct slight vehicle trimming problems and will increase ride height when fitted.

NITROCHARGER SPORT SELECTION

SELECTION ADVICE

Where there is a choice of part numbers it is important the right selection is made with consideration given to type of spring rates and customer applications.

Firm Valving

The firm part number should be selected whenever heavy rate springs are fitted, as the valving has been specifically developed to control the higher spring rates. The firmer valving will provide better control when cornering, while also preventing axle bounce over rough roads.

If a softer valved selection is fitted with a heavy rate spring the vehicle's rebound handling will be reduced. This will be evident by axle bounce over rough roads, dipping under braking or cornering and wallowing over undulating roads.

Soft Valving

Valved specifically for light to medium rate springs. Most suitable for customers wanting a comfortable ride and regularly carry light to medium loads. Under full GVM load a slight amount of body roll during cornering and highway speed manoeuvring can occur.

A RECOMMENDATION FOR CUSTOMERS BUYING 4 REPLACEMENT SHOCK ABSORBERS

By the time a customer has decided to replace the old and well used original shock absorbers there is every chance that the original springs are also ready for replacement.

It should be explained to the customer that if their springs are sagged and tired that this would cause the shock absorbers to work a lot harder.

Therefore, the life expectancy of the shock absorbers will be considerably shortened and, when loaded, ride and handling qualities will also be reduced.

REMEMBER: A good set of shock absorbers will not overcome a bad set of springs.

	Amarok V6 Diesel	90013 ^{23,24,30,36}	60083 ²⁵ / 60082 ²⁵	

NOTES: *first part number has firmer valving.

- Shock lower body stone guards are recommended fitment to rear shocks to protect against severe stone peppering encountered on loose road surfaces. OME661 (suits Sorento BL To 09, FJ Criser 06 On, 4 Runner 10 On & 03 to 10 USA models, LandCruiser 76 LWB, 80, 100, 105, 200, 300 Series, Prado 150 09 on coil sprung not Kakadu, 120 Series 10/02 to 09 not TEMS & Prado 90 Series to 10/2002 LWB). OME662 (suits LandCruiser 105 & 80 Series with 34mm diameter Control Arm, 100 Series IFS not AHC with 40mm diameter Control Arm). OME660 (suits all other models).
- It may be necessary to slightly increase the clearance in the front wishbone to allow the shock absorber to fit. Do not modify the shock absorber.
- FK18 rear sway bar extension bracket for LWB Models and FK24 for SWB Models are **mandatory** fitments with Nitrochargers to prevent damage to sway bar due to increased wheel droop.
- FK22 support brackets must be installed to upper shock mounting brackets on late 1996 on models manufactured in Thailand.
- Original struts and OME coils cannot be used together. No top mounting bushes and dirt shield supplied, re-use OE bushes and dirt shield.
- Sway Bar/Brake Fitting Kit FK85 is **required** when fitting all OME rear shocks.
- 60043 is 20mm longer and must only be installed to right hand side.
- OMEB11 bush kit is required to convert lower 19mm bush to 16mm ID.
- OMESD40 will only fit left hand drive models.
- FK16 20mm bump stop spacer kit is a **mandatory** fitment.
- No top mounting bushes supplied, re-use OE bushes. Where required, re-use OE Top Hat, Dirt Shield and Bump Stop.
- When remaining stock is exhausted no further product will be available.
- No top mounting bushes supplied, refer to vehicle specific application to select relevant upper strut bushes. OE bushes may be re-used if in good condition.
- FK42 is a **mandatory** fitment to space sway bar link away from shock absorber.
- OME front shock 60121 is not suitable as an OE replacement. When fitting our longer OME shock 60121 you must fit: FK71 brakeline kit to extend/drop the brakelines, FK72 sway bar kit to lower the front swaybar, FK70 radius arm drop bracket kit to 11 to 17 models, FK80 to 08 - 10 models as if not fitted you may over stretch the front brakelines.

Cont.

NITROCHARGER SPORT SELECTION

NOTES - (continued): *first part number has firmer valving.

16. Re-use rear OE top damper forged bracket, bushes, dirt shield, bumpstops and fasteners for the assembly of the rear shock.
17. No top mounting bushes supplied use OME3133 / OME3134 / OME3135, vehicle specific refer to vehicle selection page. OE bushes may be re-used if in good condition. OME struts can only be installed with OME coils.
18. 60130 and 60131 **cannot** be used as a shock only OE replacement on Colorado 7/Trailblazer Models. Can be used as an OE replacement for Isuzu MU-X.
19. No top mounting bushes supplied use OME3121. OE bushes may be re-used if in good condition. No dirt shield supplied, please re-use OE.
20. Shock absorber 60140¹² is suited for constant rear loading in excess of 800kgs.
21. 1975 and newer FJ40's may need to use N76 shocks in rear: Pre 1975 shock eye in the top of the axle housing use N89¹²/60032¹²/60064¹². Post 1975 lower shock eye is below leaf spring use N76 with OMEB11 Bush Kit.
22. FK29 Rear Driveshaft Spacer is a **mandatory** fitment.
23. Top mount bump stop and bushes not supplied, re-use OE items.
24. For trimming purposes only, maximum 1 packer per strut.
25. OME665 Lower Shock Mount Stone Guard is **mandatory** fitment to rear shocks to protect against severe stone peppering encountered on loose road surfaces.
26. FK22 Front Shock Absorber Upper Mount Support Bracket Kit is a **mandatory** fitment.
27. When fitting 60018¹²/60070¹² it is **mandatory** to fit longer coils 3062 - 3066 for springs to remain trapped with shocks fully extended, fit FK62 to prevent shock damage, fit FK63 for front driveshaft clearance and rear extended travel, fit FK64 which replaces OE upper shock mount when fitting rear shocks and remove any inner helper coils already fitted. **Caution:** Front driveshaft **MUST** be replaced / modified with Double Cardan Joints and checked for Uni bind with OME shocks installed at droop.
28. Caution: Due to altered gearbox mounts on models after 1998 any lift above OE ride height may cause front driveline vibration that can only be rectified by fitment of front Double Cardan Joints.
29. Caster Kit will increase caster angle by 2°. Check manufacturer's specifications to determine if Caster Kit is required. CALR1 suits 38mm wide control arms. CALR2 suits 44mm wide control arms.
30. Volkswagen Service Manual quotes that driveshaft bolts are a one use only. It is recommended to replace bolts. Replacement bolts Volkswagen Part Number N90991102 are to be sourced separately.
31. Suits 100mm coils
32. Vehicle specific, refer to vehicle selection page for full details and to review **important** notification regarding modifications for off road use only along with warranty implications. For JK Wrangler, Patrol GU Y61 & GQ Y60, LandCruiser 80 & 105 Series refer to Off Road Use Only vehicle specific pages.
33. For high articulation vehicles it is recommended to replace rear upper shock mount with FK64 and matching shock absorbers 60146¹² or 60147¹²
34. Fitment of FK92 and FK105 are **mandatory**.
35. Fitment of LCAJLFR Front Lower Control Arm is **required** to restore wheel alignment castor settings.
36. To ensure correct 90012 and 90013 strut fitment please refer to fitting instruction part number 3787896 Amarok Strut Fitting Guide.
37. For front fitment reuse OE Top hat and Mounting Bushes. For rear fitment UBolts, Rear Spring Bush Kits and Leaf Spring Bolt Fitting Kit are additional requirements. Extra Leaf, Trim Packer and Centre Bolt are optional. Refer to the vehicle selection page for full details.
38. Headlight Sensor Fitting Kit FK97 is required when fitting all OME extended travel rear shock absorbers.
39. Workshop tool FK102 **recommended** for rear shock fitment.
40. OME coils and struts can only be installed together due to different winding of the lower coil end to suit the OME coil seat. They are not compatible with the OE coil seat. Due to the nature of the KDSS. Models fitted with KDSS may experience a characteristic 10mm to 15mm lean to the front right hand side.
41. Spring selection based on Summit bar. If fitting a Sahara bar please select down one spring.
42. Use 60178¹² when adding an EL48XL Extra Leaf to an EL132R Leaf Spring or when carrying constant loads of 800kg and above.

Remarks:

Warranty Implications

The fitter selling these shocks **must** inform the customer there is **no warranty** due to the severe nature of competition racing. The fitter must also note on the customer's receipt "racing application no warranty applies". This will prevent any future misunderstanding.

1. When remaining stock is exhausted no further product will be available.

NITROCHARGERS & STEERING STABILISERS

SELECTION ADVICE

Where there is a choice of part numbers it is important the right selection is made with consideration given to type of spring rates and customer applications.

Firm Valving

The firm part number should be selected whenever heavy rate springs are fitted, as the valving has been specifically developed to control the higher spring rates. The firmer valving will provide better control when cornering, while also preventing axle bounce over rough roads.

If a softer valved selection is fitted with a heavy rate spring the vehicle's rebound handling will be reduced. This will be evident by axle bounce over rough roads, dipping under braking or cornering and wallowing over undulating roads.

Soft Valving

Valved specifically for light to medium rate springs. Most suitable for customers wanting a comfortable ride and regularly carry light to medium loads. Under full GVM load a slight amount of body roll during cornering and highway speed manoeuvring can occur.

A CAUTION FOR CUSTOMERS BUYING 4 REPLACEMENT SHOCK ABSORBERS

By the time a customer has decided to replace the old and well used original shock absorbers there is every chance that the original springs are also ready for replacement.

It should be explained to the customer that if their springs are sagged and tired that this would cause the shock absorbers to work a lot harder.

Therefore, the life expectancy of the shock absorbers will be considerably shortened and when loaded ride and handling qualities will also be reduced.

REMEMBER: A good set of shock absorbers will not overcome a bad set of springs.

Remarks:

Refer to Specifications - Shock Absorbers Nitrocharger section for open and closed lengths of equivalent standard Nitrocharger models.

NOTES: *first part number has firmer valving.

1. 1983 and on wide track CJ Jeeps require bush kit OMEB27 for the front lower mount and all Cherokee wagons and Mahindra lower front and rear mounts.

Cont.

NITROCHARGERS & STEERING STABILISERS

NOTES - (continued): *first part number has firmer valving.

2. Shock lower body stone guards are recommended fitment to rear shocks to protect against severe stone peppering encountered on loose road surfaces. OME661 (suits Sorento BL To 09, FJ Criser 06 On, 4 Runner 10 On, LandCruiser 76 LWB, 200 Series, Prado 150 09 on coil sprung not Kakadu, 120 Series 10/02 to 09 not TEMS & Prado 90 Series to 10/2002 LWB). OME662 (suits LandCruiser 105 & 80 Series with 34mm diameter Control Arm, 100 Series IFS not AHC with 40mm diameter Control Arm). OME660 (all other models).
3. 1975 and newer FJ40's may need to use N76 shocks in rear: Pre 1975 shock eye in the top of the axle housing use N89¹⁸/60032¹⁸/60064¹⁸. Post 1975 lower shock eye is below leaf spring use N76 with OMEB11 Bush Kit.
4. It may be necessary to slightly increase the clearance in the front wishbone to allow the shock absorber to fit. Do not modify the shock absorber.
5. FK18 rear sway bar extension bracket for LWB models and FK24 for SWB models are **mandatory** fitment with Nitrochargers to prevent damage to sway bar due to increased wheel droop.
6. FK22 Front Shock Absorber Upper Mount Support Bracket Kit is a mandatory fitment.
7. FK22 support brackets must be installed to upper shock mounting brackets on late 1996 on models manufactured in Thailand.
8. N208S¹⁸ can only be installed with OME Coil Springs. No top mounting bushes supplied, re-use OE bushes.
9. N179 suits models with single rear shock set up. Models with twin rear shocks require N179 fitment rear of axle, N180 front of axle, also fitment of OME660 stone shields are recommended on the N180.
10. OMESD40 will only fit left hand drive models.
11. To obtain maximum ride quality improvement it is recommended that an OME replacement stabiliser bar (OMESTAB1) be fitted.
12. OMESD35¹⁸ will suit D21 models only.
13. Only suitable for models equipped with original steering damper.
14. Shocks are the same length as OE.
15. OME030¹⁸ is shorter than OME029 and must be used with OE coils to ensure coils remain entrapped.
16. No top mounting bushes supplied, re-use OE bushes.
17. FK28¹⁸ Bump Stop Spacer Kit is a mandatory fitment with N103S Struts.
18. When remaining stock is exhausted no further product will be available.
19. No top mounting bushes supplied, refer to vehicle specific application to select relevant upper strut bushes. OE bushes may be re-used if in good condition.
20. FK42 is a **mandatory** fitment to space sway bar link away from shock absorber.
21. Vehicles with ABS will require ABS Bracket Kit SMP638.
22. Front strut has 40mm longer travel than original equipment.
23. Rear shock has 50mm longer travel than original equipment.

**Note: Replacement dust boot part numbers Nitrocharger: OME412422 - Small
Replacement dust boot part numbers Nitrocharger: OME512422 - Large**

NOTES ON ARMoured SUSPENSION SELECTION & FITMENT:

The above suspension systems have been designed and tested to suit a vehicle weight range of 3.9 - 4.5T, for vehicle weights outside this range please contact ARB.

Components have been designed to operate as a complete replacement system, it is not recommended to fit these products individually.

All fitting kits, components and replacement bushes are included with the above products where

Comments

1 Y62 Armoured Suspension System was designed for and tested on non-HBMC equipped vehicles.

2 When remaining stock of 3069 is exhausted no further product will be available.

		Strut - N/Plus L	93035		
		Strut - N/Plus R	93036		

Comments

1 No top mounting bushes and dirt shield supplied, re-use OE bushes and dirt shield. Original struts and OME coils cannot be used together.

2 Tow Pack option uses Nivomat (self-levelling) shock absorber and requires a specific design.
Please note: when replacing Nivomat shocks, you **must** fit the OME spring.

To identify whether a vehicle has the standard fitment rear shock or Nivomat shock, the outer body diameter will need to be measured.

Standard: 51mm

Nivomat: 63mm

3 Does not suit OE Coil

Fitting Time: Due to the complexity of installation allow 4 hours for complete install.

R	CENTRE BOLT		2	6
R	SPRING BUSH KIT	OE		

Comments

1 OMEU60 suits Dana 35 type differential - Australian Models. OMEU57 suits AMC 8 1/4 type differential.

2 Trimming requirement greater than 10mm use A/A fitment. Where near level rake is desired B/B fitment should be used. D22XL extra leaf can be fitted to CS034RA/B and CS035RA/B for heavier constant load carrying ability.

NB: Models fitted with OE Up Country Suspension pack will only be raised by 20mm.

3 OMEJGF10 front coil packer can be used for trimming or extra lift purposes, using no more than 1 packer.

4 Fit XJGK01 Gearbox Packer Kit should a driveline vibration occur.

5 OMESD40 will only fit left hand drive models.

6 Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.

WARNING:

XJ Models fitted with a 3 bolt engine exhaust pipe flange, can experience a clearance problem with the tail shaft when suspension is under full deflection. Fitment of an adjustable front panhard rod or a change to a smaller 2 bolt flange will provide the required clearance.

Comments

* Heavier valved option

1 For ride height and trim adjustment use - Front: OMEJGF10 / Rear: OMEWTJPR10

2 FKWTJ01 Panhard Rod Extension Bracket Kit fitment to right hand drive or FKWTJ02 to left hand drive models is **mandatory** to ensure correct rear axle tracking.

3 A Gear Box Packer Kit is **mandatory** fitment to prevent driveline vibration.

JWKG01 suits all models to 2003.

JWKG02 suits manual models from 2003.

JWKG03 suits auto models from 2003.

4 FK16: **Mandatory** fitment 20mm Bump Stop Spacer Kit to prevent coil springs becoming solid on full compression.

5 OMESD40 only suitable for fitment to left hand drive models.

6 To achieve optimal vehicle balance front to rear when rear spring 2949 is fitted, it is recommended that only 60047 is fitted to the front.

7 When existing stock of N66, N66C, 60046, 60047 and 60049 is exhausted no further product will be available.

Comments

- 1 JWGK01 fitment reduces driveline vibration
- 2 Use OMESB57 with original shackles. OMESB87 with OMEGS11 greasable shackles.
- 3 OMESD40 will only fit left hand drive models.
- 4 Please re-use original U-Bolts.

CS037R - suits Soft Top, light load.
CS036R - suits Hard Top medium load to 200kgs.
- 5 Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.

Comments

- 1 Use OMEJKPF10 to achieve lift with bar only. Do not fit more than one (1) packer per coil spring.
- 2 Fitment of LCAJLFR Front Lower Control Arm is **recommended** to restore wheel alignment castor settings. LCAJLFR should be set at 5mm longer than OE prior to wheel alignment.
- 3 Fitment of FK100 is **mandatory**. FK100 Bump Stop Kit prevents springs from going solid.
- 4 For trim adjustment use - Front: OMEJKPF10 Rear: OMEJLPR10. Do not fit more than one (1) packer per coil spring.

Modifications for off road use only.

The products listed in this selection chart are deemed by Old Man Emu to be suitable for off road use and their legality for public road use should be certified by the relevant Registration Authority. An Off Road Use Only Disclaimer must be signed by the customer.

Modifications and replacement of other associated components will be required.

Comments

1 For trim adjustment use - Front: OMEJKPF10 Rear: OMEJLPR10. Do not fit more than one (1) packer per coil spring.

2 Fitment of LCAJLFR Front Lower Control Arm is **required** to restore wheel alignment castor settings.

3 Fitment of FK92 is **mandatory**. FK92 Bump Stop Kit prevents shock absorbers from going solid for fitment of larger tyres. Fitment of FK105 is **mandatory**. FK105 allows the shocks to extend freely without limit or contact.

4 Fitment **not mandatory**, however fitment will allow for fine tuning vehicle geometry.

5 Not suitable for models with headlight adjustment, no provision for adjustment link.

Diesel LHD	100mm	OMEJK4D	

Comments

1 For trim adjustment use - Front: OMEJKPF10 Rear: OMEJKPR10. Do not fit more than 1 packer per coil spring.

2 Fitment of Panhard rod extension bracket kit is not mandatory, however fitment will improve the ride feel by locating the panhard rod to its original position.

3 2012 Models with 3.6L engine will require exhaust or driveshaft modification to avoid contact of driveshaft and exhaust at full droop. When fitting larger than original diameter tyres, it is a requirement to fit aftermarket wheels (rims) that have a greater offset (less backspacing) to ensure that sufficient clearance is given between the tyre to sway bar, sway bar links and control arms.

4 Kit Includes: 2 x Front Shocks, 2 x Rear Shocks, 1 x (pair) Front Coils, 1 x (pair) Rear Coils, 1 x Steering Damper, 1 x Front Forged Panhard, 1 x Bump Stop Kit, 1 x Brakeline Relocation Kit, 1 x Rear Panhard Bracket Kit, 1 x Sway Bar Link Dis-Connect Kit, 1 x Caster & Driveline Kit, 2 x Front Trim Packer, 2 x Rear Trim Packer, 1 x Display Carton. Refer to Chrysler Jeep Wrangler JK Off Road Use Only page for kit breakdown

5 FK53 Caster Kit will increase caster angle by 2 degrees. Check manufacturer's specification if Caster Kit is required.

6 FK50 is a mandatory fitment for 2006 To 2008 Models when fitting OMESD48. Left hand drive only.

The products listed in this selection chart are deemed by Old Man Emu to be suitable for off road use and their legality for public road use should be certified by the relevant Registration Authority. An Off Road Use Only Disclaimer must be signed by the customer.

Modifications and replacement of other associated components will be required.

Warranty will be void if the shocks have been used in a racing application.

2012 Models with 3.6L engine will require exhaust or driveshaft modification to avoid contact of driveshaft and exhaust at full droop.

When fitting larger than original diameter tyres, it is a requirement to fit aftermarket wheels (rims) that have a greater offset (less backspacing) to ensure that sufficient clearance is given between the tyre to sway bar, sway bar links and control arms.

Comments

1 Shocks are designed around a 100mm coil - compatibility for 75mm & 125mm need to be determined by the installer with open and closed lengths checked as well as bump stop contact measurements.

2 BP5160021 4+ Front 633 - Suits OMEJK4 Kits.
BP5160022 4+ Front 683 - Longer travel front shock, other modifications to the vehicle will be required.

3 FK53 suits front only. Increases caster by 2 degrees.

4 FK49 Adjusts front caster and rear pinon angle.

5 FK48 suits 100mm lift.

6 3460010SP & 3460011SP suits 100mm lift. Kit is a link only.

7 OMESB3023 suits sway bar link 3460010SP.

8 LCAJKFR & UCAJKFR - Suits SWB & Unlimited models (1 pair).

9 PANRJK002 - suits LHD.
PANRJK003 - suits RHD.

10 Coil trim packers may be required to trim vehicles. Each packer is 10mm.

11 FK47RHD - suits RHD & 100mm Lift.
FK47 - suits LHD & 100mm Lift.

12 LCAJKRR & UCAJKRR - suits SWB & Unlimited Models (1 pair).

13 FK50 is a mandatory fitment for 2006 To 2008 Models when fitting OMESD48. Left hand drive only.

14 BP5160030, 4+ Rear 685.
VM80010015 4+ Rear.

Comments

- OMESB117 suits OE Shackle
OMESB118 bush kit suits OME Greasable shackle
OMEGS20
- Use OMEU82 when fitting EL130R/ EL131R
Use OMEU83 when fitting EL132R
- Fitment of Driveline Spacer Kit FK113 is recommended to re-align driveline.
- EL48XL will give approximately 30mm extra lift or increase loading capacity at design height by approximately 300kg.
- FK114 only required for vehicles fitted with upgraded auto levelling head lights.
- FK115 Bump Stop Adapter Kit is optional but highly recommended to save fitment time
- FK116 Diff Breather Extension Kit only required for vehicles fitted with Ad Blue (Europe Only - for other markets check vehicle specs)
- FK95 is a recommended fitment if original leaf spring fixed eye nut bolts are in poor condition. Ensure correct torque specifications are used in supplied fitting instructions.
- Use 63178 when adding an EL48XL Extra Leaf to a EL132R Leaf Spring or when carrying constant loads of 800kg and above. EL48XL will give an extra 250-300kg carrying capacity or 20-25mm lift.
- Refer to **Leaf Spring Service Parts** section for Centre Bolt selection. Please note EL130R / EL131R & EL132R require 2 centre bolts per leaf.
- Spring selection based on Summit bar. If fitting a Sahara Bar please select down one spring.
- Wildtrack model is approximately 200kg heavier and will result in 10-15mm less in ride height. Trim packers may be required.

Use OMEU66B when fitting EL128R with EL34XL.

8 Fitment of Driveline Spacer Kit FK57 is recommended to re-align driveline.

9 EL34XL will give approximately 30mm extra lift or increase loading capacity at design height by approximately 300kg.

10 If a TAD110 Frontier tank is installed in the vehicle, when fitting the FK57 spacer kit, the tank will need to be lowered to allow removal of the centre bearing bolts.

11 Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.

12 When remaining stock of 60023, 60101, 60102, EL102R & EL103R is exhausted no further product will be available.

Comments

1 FK22 Front Shock Absorber Upper Mount Support Bracket Kit is a **mandatory** fitment.

2 Include tray weight in constant load calculation.

3 Use OMEU66 when fitting CS056R and EL049R. Use OMEU66A when fitting CS060R.

4 D34XL and UCB19 suits CS056R and CS060R. EL34XL suits EL049R.

5 For Models with 2.5TD engine measure length of Torsion Bar to determine correct fitment.
303005 - 925mm.
303013 - 1024mm.

All other variants use Part # **303013**.

6 Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.

7 When remaining stock of 60023, 60102, N187 and N194 is exhausted no further product will be available.

Remarks:

Some South American Models, built in Argentina, use torsion bars with hexagonal ends. OME suspension is not suitable for these Models.

	U BOLTS - OVERLOAD LEAF		OMEU67		
	FITTING KIT		FK31	1	3
	SPACER KIT		FK35		
			OMESK1		

Comments

1 Springs are supplied with bushes fitted. Where the OE spring has an overload leaf fitted, it must be replaced with a TSXL01 and the CS048R original centre bolt replaced by a UCB10, the original spacing block must also be re-fitted using U Bolts OMEU67.

2 To maintain 50mm lift for loads over constant 600kgs add one D27XL Extra

3 Fitment of Driveline Spacer Kit FK31 for Crew Cab or FK35 for Xtra Cab is recommended to reduce possible driveline vibration. If required, additional spacing down of the centre bearing can be achieved by using an OMESK1 Spacer Kit.

4 Fitment of a FK36 Caster Correction Kit will provide approximately 3.5 to 4.0 degrees of extra caster. It is advisable to have a Front End Alignment carried out to determine if an FK36 kit is required.

FORD

R	CENTRE BOLT		2	9

Comments

1 APRF250 Adjustable Panhard Rod **must** be fitted to allow original axle location to be restored, bushes are supplied in Rod.

2 For F250 Models with dual shock fitment, N179 **must** be fitted rear of the axle as it is longer than the N180. For Both F250 and F350 Models OME660 stone shields are also a recommended fitment to the rear shocks.

3 To help maintain 50mm lift, add one D27XL Extra Leaf for every 400kgs carried over 600kgs.

4 Fitment of FK31 to Crew Cab or FK35 to Extra Cab Models is recommended to reduce possible driveline vibrations

5 F350: As the CS048R has a different spring camber compared to the original spring, the overload leaf **must** be replaced with a TSXL01. The original spacing block **must** be refitted.

6 Springs are supplied with bushing.

7 OMEU68 Suits - F250
OMEU67 Suits - F350

8 USA F350 Models use 4 x OMEU69

Comments

1 No top mounting bushes supplied, use OME3134. OE bushes may be re-used if in good condition. OME struts can only be installed with OME coils.

2 Colorado 04/13 onwards, due to change in top hat OMESB3014 will be required for fitment of OME coils. Please note: Only needed for up to 2015 Models. Not required for Trailblazer 2017 On Models or Isuzu MU-X.

3 Strut Top Hat Kit may be required if original equipment is worn.

4 60130 and 60131 **cannot** be used as a shock only OE replacement on Colorado 7/Trailblazer Models. Can be used as an OE replacement for Isuzu MU-X.

5 Does not suit OE Coil

Comments

1 No top mounting bushes supplied use OME3134. OE bushes may be re-used if in good condition. OME struts can only be installed with OME coils.

2 OMESB119 Bush Kit suits OME Greasable Shackle, OMEGS26.

OMESB120 Bush Kit suits OE Shackle.

3 If fitting extra leaf to EL125R, use U Bolt OMEU53B.

4 Handbrake Relocation Bracket FK66 is a required fitment.

5 Strut Top Hat Kit may be required if original equipment is worn. Note: Remove plastic isolator from OMEH004, not required for fitment.

6 LS-M Ute & SX XT Cab Chassis models are fitted with heavy duty leaf springs. Lift results may vary.

7 Australia only. Full OME suspension system must be fitted.

8 Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.

9 Does not use a ball joint cover.

10 Does not suit OE Coil

FRONT SELECTION

PETROL & DIESEL ENGINES		Part Number	Qty	Notes
No Bar/ No Load	Torsion Bars	303012	1	1
	Shock - N/Sport	60031	2	5
	Shock - N/Plus	63031		

Comments

1 Raise or lower front end clearance and trim vehicle by adjusting front torsion bars. **Important:** A minimum of 60mm of droop **must** be maintained.

It has been found, due to vehicle manufacturing tolerances, that in some cases front shock absorbers may contact the steering arm when on full lock. Fitter should check for this and where required a small indentation should be made to the body of the shock absorber. 303012 torsion bars have a lighter rate than OE and improve ride comfort for vehicles with no front accessory weight. Due to their heavy rate, the OE torsion bars are suitable for vehicles with front accessory weight.

2 Include tray weight in constant load calculation. CS062R and CS063R can be installed to high height 4x2 Models. OME leaf does **not** fit low height 4x2 Models.

3 FK26 only needed if **not** fitting Greasable Shackle Kit.

4 Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.

5 When remaining stock of N89, 60031, 60032 and 60064 is exhausted no further product will be available.

Comments

1 Caution: Due to altered gearbox mounts on Models after 1998 any lift above OE ride height may cause front driveline vibration that can only be rectified by fitment of front double cardan joints.

Caster Kit will increase caster angle by 2 degrees. Check manufacturer's specifications to determine if Caster Kit is required.

CALR1 suits 38mm wide control arms. CALR2 suits 44mm wide control arms.

2 2752 coil has a softer spring than OE coil. This is to provide improved ride quality with light loads only. Expect an estimated 25mm of lift.

OE springs are designated as medium load springs.

3 Original inner helper coil, where fitted, must be re-installed with OME Coils.

4 8mm Steel Coil Seat Packer, refer to selection chart supplied with packer.

Important: To prevent possible over stressing of the spring, only one packer can be fitted under each coil seat.

5 For High Articulation (HA) vehicles it is recommended to replace rear upper shock mount with FK64 and matching long shocks 60146 or 60147.

6 When remaining stock of 60037, 60038, 60039, 60146, 60147 and N45F is exhausted no further product will be available.

1 When fitting coil springs recommended, it is **mandatory** to use 60018/60070 shock absorbers to achieve minimum down travel requirement.

2 When fitting 60018 / 60070 the following are **mandatory** requirements:

- * Fit longer coils 3062-3066 for springs to remain trapped with shocks fully extended
- * Fit FK62 to prevent shock damage
- * Fit FK63 for front driveshaft clearance and rear extended travel
- * Fit FK64 which replaces OE upper shock mount when fitting rear shocks
- * Remove any inner helper coils already fitted

F/R	BUMP SPACER KIT	FK62	2	2
F/R	SWAY BAR SPACER KIT	FK63		

3 Caster Kit will increase caster angle by 2 degrees. Check manufacturer's specifications to determine if Caster Kit is required. CALR1 suits 38mm wide control arms. CALR2 suits 44mm wide control arms.

4 8mm Steel Coil Seat Packer, refer to selection chart supplied with packer.

Important: To prevent possible over stressing of the spring, only one packer can be fitted under each coil seat.

5 Important: 3064 has reduced spring rate from OE to provide improved ride quality for light loads.

OE springs are designated as medium load springs.

6 Trailing Arm Bush is an optional fit. Bush kit is offset and accommodates for the increased angle of the trailing arm due to longer travel.

Comments

Caution: Front driveshaft **MUST** be replaced / modified with Double Cardan Joints and checked for Uni bind with BP-51 shocks installed at droop.

1 When fitting coil springs it is **mandatory** to use BP-51 shock absorbers to achieve minimum down travel requirement.

2 When fitting BP-51 shock absorbers the following are **mandatory** requirements:

- * Fit longer coils 3062-3066 for springs to remain trapped with shocks fully extended
- * Remove any inner helper coils already fitted

3 Caster Kit will increase caster angle by 2 degrees. Check manufacturer's specifications to determine if Caster Kit is required. CALR1 suits 38mm wide control arms. CALR2 suits 44mm wide control arms.

4 8mm Steel Coil Seat Packer, refer to selection chart supplied with packer.

Important: To prevent possible over stressing of the spring, only one packer can be fitted under each coil seat.

5 Important: 3064 has reduced spring rate from OE to provide improved ride quality for light loads.

OE springs are designated as medium load springs.

6 Trailing Arm Bush is an optional fit. Bush kit is offset and accommodates for the increased angle of the trailing arm due to longer travel.

		Fit Kit	VM80010044		

Comments

1 No top mounting bushes supplied use OME3134. OE bushes may be re-used if in good condition. OME struts can only be installed with OME coils.

2 OMESB119 Bush Kit suits OME Greasable Shackle, OMEGS26. OMESB120 Bush Kit suits OE Shackle.

3 If fitting extra leaf to EL125R, use U Bolt OMEU53B.

4 Handbrake Cable Fit Kit FK66 is required fitment.

5 Strut Top Hat Kit may be required if original equipment is worn.

6 LS-M Ute & SX XT Cab Chassis models are fitted with heavy duty leaf springs. Lift results may vary.

7 Australia Only. Full OME suspension system must be fitted.

8 Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.

9 Does not use a ball joint cover.

10 Does not suit OE Coil.

OME UCA Eye Bush 2pk	UCASP004	1	
OME UCA Ball Joint 1pk	UCASP005	EA	
OME UCA Boot 2pk	UCASP006	1	

Comments

1 No top mounting bushes supplied use OME3135. OE bushes may be re-used if in good condition.

2 Trim Packer FK56 provides 10mm lift at the wheel.

3 Strut Top Hat Kit may be required if original equipment is worn.

4 Important: Please refer to TSB003.

5 The OME Upper Control Arm will provide an increase between +2.5 and +3.5 degrees of caster and up to 1.5 degrees of negative camber increase (figures based off an approximate 50mm lift). Please note after fitment of Upper Control Arm a vehicle wheel alignment will be required.

6 OMESB117 suits OE Shackle & Greasable Shackle Pin Kit OMEGP10 - ¹²EL102R/¹²EL103R/EL126R/EL127R/ EL128R.

OMESB102 suits OE Shackle & Greasable Shackle Pin Kit OMEGP9 - EL049R.

OMESB118 Bush Kit suits OME Greasable Shackle OMEGS20 - ¹²EL102R/¹²EL103R/ EL126R/ EL127R/ EL128R.

OMESB103 suits OME Greasable Shackle OMEGS20 - EL049R.

7 Use OMEU66 when fitting ¹²EL102R/ EL126R.

Use OMEU66A when fitting ¹²EL103R/ EL127R/ EL128R.

Use OMEU66B when fitting EL128R with EL34XL.

8 Fitment of Driveline Spacer Kit FK57 is recommended to re-align driveline.

9 EL34XL will give approximately 30mm extra lift or increase loading capacity at design height by approximately 300kg.

10 If a TAD110 Frontier tank is installed in the vehicle, when fitting the FK57 spacer kit, the tank will need to be lowered to allow removal of the centre bearing bolts.

11 Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.

12 When remaining stock of 90019, 90020, EL102R and EL103R is exhausted no further product will be available.

13 Does not suit OE Coil.

Comments

1 Coil trim packers may be required to trim vehicles. Packers must be installed to the bottom of front coils. Not suitable for rear coils.

2 OMECA77B Caster Kit will increase caster angle by 2 degrees. Check manufacturer's specifications to determine if OMECA77B Caster Kit is required.

3 FK18: Rear Sway Bar Extension Bracket is **mandatory** fitment to prevent damage to sway bar when suspension is at full extension. FK24 suits Models with detachable sway bar.

		Fit Kit	VM80010022	1	8

4 Special Note: Due to limited clearance between tailshaft and chassis cross member, OME does not recommend fitment of gear box packers.

5 OMESD11 Steering Damper fits all Models To 1/2000. OMESD01 fits 2/2000 Models On. To verify correct fitment for individual vehicles compare OE mounts with Steering Stabilisers Specifications section.

6 It is highly recommended to reinforce coil towers if fitting heavy rear springs.

7 Fitment to vehicle with original exhaust, if larger exhaust fitted some modifications to exhaust may be required.

8 United Arab Emirates ONLY use BP-51 Fit Kit VM80010032.

Warranty will be void if the shocks have been used in a racing application.

Comments

- Shocks are designed around a 100mm coil - compatiability for 75mm & 125mm need to be determined by the installer with open and closed lengths checked as well as bump stop contact measurements.
- OMESD34 Suits GQ Pre 8/1989 Models
OMESD36 Suits GQ 8/1989 On Models
OMESD11 Suits GU Pre 01/2000 Models
OMESD01 Suits GU 01/2000 On Models
- PANR004 Suits Pre 01/00 wagon CC Models RHD Only.
PANR028X Suits 01/2000 On models not CC, RHD Only.
PANR005 Suits Pre 01/00 wagon CC Models RHD & LHD, does not suit H260 Differential.
PANR029X Suits 01/2000 On models not CC, RHD & LHD, does not suit H260 Differential.
OME3098 Suits OE & Adjustable 01/00 On
- GQGK01 Suits GQ Models Only
- Coil trim packers may be required to trim vehicles. Packers must be installed to the bottom of front coils only.
- Coil Tower reinforcement is highly recommended
- LTA3044 - Standard Length Arms
UTAA106 - 50mm on car adjustable
- Suits United Arab Emirates only

Comments

- OMESD01 fits 2/2000 On Models.
OMESD11 fits all Models To 1/2000.
- OMECA77B Caster Kit will increase caster angle by 2 degrees. Check manufacturer's specifications to determine if OMECA77B Caster Kit is required.
- FK25 x 2 Oil Pan Kits **must** be installed when OMECA77B Caster Kit or GQGK02 Gear Box Packer Kit are fitted.
- FK18: Rear Sway Bar Extension Bracket is **mandatory** fitment to Models with fixed sway bar to prevent damage to sway bar when suspension is at full extension. FK24 suits Models with detachable sway bar.
- GQGK02 Gear Box Packer Kit is designed to space down the gear box cross member from the chassis to reduce tail shaft flange angle thereby reducing driveline vibration. In some cases two (2) kits may be required.
- Fitment to vehicle with original exhaust, if larger exhaust fitted some modifications to exhaust may be required.
- United Arab Emirates ONLY use BP-51 Fit Kit VM80010032.

Comments

1 Models with P40 4 litre engine require CS011FA / B springs. Individual vehicles fitted with A / B fitment may experience a pronounced trimming problem to right hand side. In these cases fitment of an XL leaf to the right hand side will correct problem.

2 Front Spring Bushes:
Early Model (round headlight) require OMESB28 and OMESB29.
Late Model (square headlight) require OMESB31 and OMESB29.

3 OME Bush Kits **must** be used to enable springs to be fitted.

4 Front U Bolt:
OMEU56 fits to right hand side
OMEU57 fits to left hand side

5 D11XL suitable for CS010FA / B.

6 Early Model: Round Headlight
Late Model: Square Headlight

7 Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.

		Strut - RH	BP5190016R		
		Fit Kit	VM80010047	1	

Comments

1 No top mounting bushes supplied use OME3139. OE bushes may be re-used if in good condition.

2 Trim packer FK84 provides approximately 10mm lift at the wheel.

3 Strut Top Hat Kit may be required if original equipment is worn.

4 Sway Bar/ Brake Fitting Kit FK85 is **required** when fitting all OME rear coil springs.

5 OMESB114 suits OE Shackle.
OMESB115 Bush Kits suits OME Greasable Shackle, OMEGS24.

6 Use OMEU59A when fitting EL092R.
Use OMEU59B when fitting EL093R and EL094R.

7 Fitment of Bump Spacer Kit FK83 is **required** when fitting all OME rear leaf springs.

8 EL43XL will give approximately 15mm extra lift or increase loading capacity at design height by approximately 300kgs.

9 Does not suit OE coil.

F	TRIM PACKER	FK84	EA	2

Comments

1 No top mounting bushes supplied use OME3139. OE bushes may be re-used if in good condition.

2 Trim packer FK84 provides approximately 10mm lift at the wheel.

3 Strut Top Hat Kit may be required if original equipment is worn.

4 Sway Bar/Brake Fitting Kit FK85 is **required** when fitting all OME rear coil springs.

5 OMESB114 suits OE Shackle.
OMESB115 Bush Kits suits OME Greasable Shackle, OMEGS24.

6 Use OMEU59A when fitting EL092R.
Use OMEU59B when fitting EL093R and EL094R.

7 Fitment of Bump Spacer Kit FK83 is **required** when fitting all OME rear leaf springs.

8 EL43XL will give approximately 15mm extra lift or increase loading capacity at design height by approximately 300kgs.

9 Does not suit OE coil.

			OMESB105		
	GREASABLE SHACKLE KIT		OMEGS21	1	
	U BOLT		OMEU63	4	
	U BOLT THREAD SPACER KIT		FK01	1	5

2 It may be necessary to slightly increase the clearance in the front wishbone to allow shock absorber to fit. Do not modify shock absorber.

3 Include tray weight in constant load calculation. For constant 400kg loads, add D18XL to CS031R.

4 CS032R has a 25mm lower cambered 2nd stage for improved ride quality, however this will cause the ride height under heavy load to be 25mm lower.

5 FK01 U Bolt Thread Spacer Kit required on all cab chassis Models.

6 OMESB91 suits OE Shackle.
OMESB105 suits OME Greasable Shackle OMEGS21.

7 Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.

8 When remaining stock of N59 is exhausted no further product will be available.

Comments

1 Fit OMECA001 to restore caster wheel alignment. Please refer to PIB No.1625 regarding radius arms inconsistencies.

2 Headlight sensor fitting kit FK97 is required when fitting all OME extended travel rear shocks.

3 Fit FK96 improve ride quality, not mandatory fitment.

4 Due to some variances in vehicle production FK99 is an optional but highly recommended fitment if vehicle displays light rear brake line and/or coil contact to rear shock absorber.

5 FK122 will eliminate contact between the front drive shaft and the OE cross member with lifted suspension fitted

6 Eliminates contact of the drive shaft on the cross member when at full droop

		Shock	93003	2	1,5

Comments

1 OE plastic stone shield **must** be refitted. No top mounting bushes supplied, use OME3139. OE bushes may be re-used if in good condition.

2 Use: OMESB99 with OE Shackles.
OMESB100 when installing OMEGS15.

3 OE U Bolt plate bolt holes may need to be enlarged when fitting OME U Bolts.

4 Strut Top Hat Kit may be required if original equipment is worn.

5 Does not suit OE coil.

Comments

1 Fitment of XL Leaf D20XL is recommended for weight in excess of 26kg on diesel Model and 75kg on petrol Model.

2 Front: LHS: OMEU60 x 2, RHS: OMEU61B x 2 required when fitting CS013FA/B
Rear: OMEU60 x 4 required when fitting CS039R

3 OMESD30 can be fitted to Models which have an OE steering damper.

4 Fitment of XL leaf D21XL is recommended for LWB Models with constant 100kg rear weight or OE hard top.

5 Refer to Leaf Spring Service Parts section for Centre Bolt selection.

		Fit Kit	VM80010066	1	

Comments

- 1 OME661 lower shock stone guards are recommended fitment for protection against stone damage.
- 2 OME coils and struts can only be installed together due to different winding of the lower coil end to suit the OME coil seat. They are not compatible with the OE coil seat.
- 3 No top bushes supplied. Re-use OE Bushes.
- 4 Does not suit OE coil
- 5 Models with Adaptive Variable Suspension (AVS) are suitable for OME Suspension upgrades. It is recommended to cut the plug off the shock and reinstall it onto the factory loom to help limit corrosion ingress.

Comments

- 1 OME661 / FK124 lower shock stone guards are recommended fitment for protection against stone damage.
- 2 OME coils and struts can only be installed together due to different winding of the lower coil end to suit the OME coil seat. They are not compatible with the OE coil seat.
- 3 No top bushes supplied. Re-use OE Bushes.
- 4 Due to the factory spring seat being susceptible to premature failure in heavy loading scenarios the FK121 is a highly recommended fitment for all vehicles.
- 5 Models with Adaptive Variable Suspension (AVS) are suitable for OME Suspension upgrades. It is recommended to cut the plug off the shock and reinstall it onto the factory loom to help limit corrosion ingress.

Selection Hints

For fitment to Models with Toyota's KDSS (Kinetic Dynamic Suspension System) fitted, please refer to OME's Fitting Hints & Tips (OME Bulletin 70 LC200 KDSS Fitting Hints).

Comments

1 OME coils and struts can only be installed together due to different winding of the lower coil end to suit the OME coil seat. They are not compatible with the OE coil seat. Due to the nature of the KDSS, Models fitted with KDSS may experience a characteristic 10mm to 15mm lean to the front right hand side.

2 To maintain ride height when front accessory weight exceeds 100kgs, OME95PF5 Coil Packer should be installed, each OME95PF5 will increase ride height by 10mm.

3 No top mounting bushes supplied, use OME3125. OE bushes may be re-used if in good condition

4 Strut Top Hat Kit may be required if original equipment is worn.

5 Australia Only. Full OME suspension system must be fitted.

6 The OME Upper Control Arm will provide an increase between +2.5 and +3.5 degrees of caster and up to 1.5 degrees of negative camber increase (figures based off an approximate 50mm lift). Please note after fitment of Upper Control Arm a vehicle wheel alignment will be required.

7 Does not suit OE coil.

BP-51	Shock (100mm)	BP5160015	2	1
	Fit Kit	VM80010026	1	

1 Shocks are designed around a 100mm coil - compatiability for 75mm & 125mm need to be determined by the installer with open and closed lengths checked as well as bump stop contact measurements.

2 PANR007 suits RHD only
PAN3050 suits LHD only
PANR008 suits RHD & LHD
LTA3043 - Standard Length
UTA3036 - 40mm on car adjustable

3 Coil trim packers may be required to trim vehicles. Rear Packers must be installed to the top of the coil tower only.
OME80PF05 - 5mm
OME80PF10 - 10mm

DOMESTIC (AUS)

INDEPENDENT FRONT SUSPENSION **DOES NOT SUIT AHC MODELS**

FRONT SELECTION

PETROL & DIESEL MODELS		Part Number	Qty	Note
Bar/ Winch/ Accessories	Torsion Bars	303001	1	1
		303002		
	Shock - N/Plus	*63001 / 63000	2	

Comments

1 Raise or lower front end clearance and trim vehicle by adjusting front torsion bars. It is **important** that a minimum of 60mm of droop is maintained to prevent topping out of the front shock absorbers. 303001 suits V8 Models, 303002 suits Turbo Diesel Models.

FIT KITS & HARDWARE

Loc	Description	Part Number	Qty	Note
F	UPPER CONTROL ARM	UCA0010	1	
F	FITTING KIT	FK27		5

2 Packers must be installed on top of coils.

REAR SELECTION

ALL MODELS 10/2000 ON			Part Number	Qty	Note
Est Lift 10mm	Medium Load	Spring	2860	1	
		Shock - N/Plus	63002	2	
	Constant 200kg	Spring	2863	1	
		Shock - N/Plus	*63003 / 63002	2	
	Constant 400kg	Spring	2864	1	
		Shock - N/Plus	63003	2	
REAR RAKE	Medium Load	Spring	2866	1	4
		Spring	2862		
		Shock - N/Plus	63002	2	

3 NITROCHARGER FITMENT: FK124/ OME661 or OME662 (suits 40mm diameter control arms) Lower Shock Mount Stone Guard is recommended fitment to rear shocks to protect against severe stone peppering encountered on loose road surfaces.

4 Original rear rake is 60mm approximately with OE coil rates of 145lbs/in or 25.5N/mm. Customers wishing to lower the rear height but increase the load carrying ability can select from:

2866 - Reduces OE height by 10mm (rates 240 - 300lbs/in, 42 - 52.5N/mm)

2862 - Reduces OE height by 30mm (rates 240lbs/in, 42N/mm)

REAR SELECTION

ALL MODELS 10/98 TO 09/2000			Part Number	Qty	Note
Est 40mm	Medium Load	Spring	2865	1	
		Shock - N/Plus	63002	2	
	Constant 200kg	Spring	2866	1	
		Shock - N/Plus	*63003 / 63002	2	

5 Due to the common problem of the lower control arm cracking when driven under hard conditions, the fitment of a FK27 Lower Control Arm Reinforcing Bracket Kit is strongly recommended.

		Fit Kit	VM80010006	1	

Comments

- 1 OMECA77B Caster Kit will increase caster angle by 2 degrees. Check manufacturer's specifications to determine if required.
- 2 Should the front drive shaft contact the sway bar when the suspension is at full droop, use FK19 Spacer Kit to pack the sway bar down.
- 3 For heavily loaded applications it may be necessary to step down one spring selection in the front to maintain correct rake.
- 4 For vehicles fitted with ABS brakes. FK65 fit kit is required for vehicles prior to August 2016 production. For vehicles post August 2016 production refer to PIB No 343 for instructions on adjustment.
- 5 Australia Only. Full OME Suspension System must be fitted.
- 6 OMESTAB3 suits V8 Diesel engines only.

Comments

- OMESB101: Use on original shackles & pins.
OMESB85: Use for all Models when installing OME greasable shackles & pins.
- Include tray weight in constant load calculation.
- OMESTAB9 Sway Bar is highly recommended fitment when 700kg Constant Spring is used. Sway Bar can also be fitted to lighter rated springs to improve road handling. FK76 suits Models with OE axle sway bar mount. FK77 suits Models without OE sway bar provision.
- FK51 and FK58 Brake Proportioning Valve Kits (included in BP-51 Fit Kit) suit vehicles prior to August 2016 production. FK51 is for medium load and 300kg spring. FK58 is for 500kg and 700kg spring. Due to variance in tray clearance on 70 Series Dual Cab please check vehicle before selecting Fit Kit.
- Use OMEU59C if fitting Extra Leaf to EL116R. Use OMEU59D for parabolic leaf springs.
- Suits EL116R **Only**.
- When fitting parabolic springs to a vehicle with a rear sway bar, the mount plate may contact the sway bar & will need to be spaced with 2 x ELSK06 & 1 x UCB17
- Air Bag Kit is a **mandatory** fitment.
- Air Bag Kit is **not recommended** for Multi-Leaf Springs.
- Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.
- Required for models 2014 to 08/16.
- Does not suit parabolic springs
- For details refer to Air Bag Details Page.315

Comments

- 1 OMECA77B Caster Kit will increase caster angle by 2 degrees. Check manufacturer's specifications to determine if required.
- 2 Should the front drive shaft contact the sway bar when the suspension is at full droop, use FK19 Spacer Kit to pack the sway bar down.
- 3 For vehicles fitted with ABS brakes. FK65 fit kit is required for vehicles prior to August 2016 production. For vehicles post August 2016 production refer to PIB No 343 for instructions on adjustment.
- 4 For heavily loaded applications it may be necessary to step down one spring selection in the front to maintain correct rake.
- 5 Australia Only. Full OME Suspension System must be fitted.
- 6 Be sure to select OME Bush Kits carefully:
OMESB85: Use for all Models when installing OME greasable shackles & pins.
OMESB86: Use when original shackles & pins are used.
- 7 To prevent springs from inverting it is mandatory that either OMEGS19 Greasable Shackle Kit or FK38 Anti Inversion Kit be installed.
- 8 OME661 Lower Shock Mount Stone Guard Kit is recommended fitment to rear shocks to protect against severe stone peppering encountered on loose road surfaces.
- 9 FK51 and FK58 Brake Proportioning Valve Kits (included in BP-51 Fit Kit) suit vehicles prior to August 2016 production. FK51 is for medium load. FK58 is for 400kg and 800kg Spring.
- 10 Use OMEU59B when fitting CS070R springs.
- 11 Does not fit with CS070R.
- 12 Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.

Comments

- 1 Include tray weight in constant load calculation.
- 2 Use OMEU59C if fitting Extra Leaf to EL116R. Use OMEU59D for parabolic leaf springs
- 3 OMESB101: Use on original shackles & pins for 79 Series Models from 07/2009 On. OMESB84: Use on original shackles & pins for 79 Series Models To 06/2009. OMESB85: Use for all Models when installing OME greasable shackles & pins.
- 4 OMESTAB9 Sway Bar is highly recommended fitment when 800kg Constant Spring is used. Sway Bar can also be fitted to lighter rated springs to improve road handling. FK76 suits Models with OE axle sway bar mount. FK77 suits Models without OE sway bar provision.
- 5 For vehicles fitted with ABS brakes an ABS Wire Bracket Kit must be fitted. FK51 and FK58 are included in BP-51 Fit Kit. FK51 is for 200kg and 400kg Spring. FK58 is for 600kg and 800kg Spring. Due to Variance in tray clearance on 79 Series please check vehicle before selecting Fit Kit.
- 6 When fitting parabolic springs to a vehicle with a rear sway bar, the mount plate may contact the sway bar & will need to be spaced down with 2 x ELSK06 & 1 x UCB17
- 7 FK82 Rear Brake Line Drop Kit is required to be fitted to vehicles from 10/14 to 08/16.
- 8 Air Bag Kit is **not recommended** for Multi-Leaf Springs.
- 9 Air Bag Kit is a **mandatory** fitment.
- 10 Suits EL116R **Only**.
- 11 Does not suit parabolic leaf springs.
- 12 Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.
- 13 For details refer to Air Bag Details Page.***

Comments

1 Vehicles with no front accessory weight will require the removal of the 4th leaf from the top of the spring stack. This is to maintain good shackle angle by not allowing the bump stop measurement to exceed 100mm.

2 Shackles: FK08 Anti Inversion Kit is **mandatory** fitment front and rear if greasable shackles are not fitted. Note: Spring Caster Wedge OMECW2 (2 degrees Caster Wedges) may be required to restore positive caster angle. Front end alignment check will indicate required adjustment.

3 There can be 2 spigot sizes in the rear fixed end pins on 75 Series LandCruisers. Check for correct size before ordering greasable pins. Part numbers are:
50mm spigot = OMEGP2.
51mm spigot = OMEGP4.

4 Include tray weight in constant load calculation.

5 D16XL is suitable for CS006F.

6 Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.

	Nitro +	Strut	*93029 / 93028	2	2,6
	MT64	Strut	MT64901001	2	2,6

Comments

1 To maintain coil clearance from the sway bar, the coil seat must be installed with the helix facing away from the sway bar.

2 No top mount bushes supplied use OME3133. OE Bushes may be re-used if in good condition.

3 Strut Top Hat Kit may be required if original equipment is worn.

4 Australia Only. Full OME suspension system must be fitted.

5 The OME Upper Control Arm will provide an increase between +2.5 and +3.5 degrees of caster and upto 1.5 degrees of negative camber increase (figures based off an approximate 50mm lift). Please note after fittment a wheel alignment will be required.

6 Does not suit OE coil.

7 For spring seat position refer to below.

No Accessories - P10

Light Bar - P15

Steel Bar - P10

Bar + Winch - P15

Bar + Winch + Acc - P20

Comments

* Heavier Valved shock option

1 Include tray weight in constant load calculation.

2 EL45XL will give approximately 20mm extra lift or increase loading capacity at design height by approximately 200kgs.

3 The Halogen Headlamp Levelling Bracket is a **mandatory** fitment for SR5 versions only.

4 Leaf Spring front eye bolt 6151539 required for fuel tank side and is available as a spare part. Refer to the Spare Parts Price List of pricing.

5 Use OMEU53A for EL105R/ EL106R & PB006R. Use OMEU53B for EL106R with extra leaf and EL107R. Use OMEU88 for PB004R & PB005R.

6 When adding extra leaf to EL107R please add UCB4.

7 Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.

8 Heavy Tune is suitable for 300kg springs & mandatory for 600kg springs.

9 Air Bag Kit is a **mandatory** fitment

10 Air Bag Kit is **not recommended** for Multi-Leaf Springs.

11 Does not suit parabolic springs.

Comments

1 Raise or lower front end clearance and trim vehicle by adjusting front torsion bars.

2 60043 is longer in length and **must** be fitted to right hand side only. Fitment to left hand side may cause damage to shock absorber and vehicle.

3 **Mandatory** fitment: either OMEGS7 or FK15 Anti Inversion Kit required to prevent possible spring inversion.

4 Fitment of FK01 Spacer Washers to U Bolts is **required** to ensure correct tension is obtained on U Bolts.

5 Include tray weight in constant load calculation.

6 D6XL suitable for CS019R, CS020R and CS021R.

7 Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.

Comments

1 A/A spring fitment may be needed on some vehicles for trimming purposes.

2 Petrol HiLux may require an FK03 (saddle correction plates) if the spring seats are distorted. FK10 must be fitted to all Diesel & Petrol Models used off road. Refer OME Technical & Fitting Manual.

3 OMEU52 is required when fitting OME springs to stop the U Bolt contacting the drag link. Refer OME Technical & Fitting Manual. OMEU52 and OMEU53B for drivers side OMEU53 for passenger side.

4 A trim packer may be required to trim vehicle. Only to be used on rear springs.

5 Post 1984 vehicles have a 19mm mounting pin and suit shock part numbers: ⁹N85, ⁹N94, ⁹60062 and 60065. Pre 1984 vehicles have a 16mm mounting pin and suit shock part numbers: ⁹N89, ⁹60032 and ⁹60064.

6 If greasable shackles are not fitted Anti Inversion Kits **must** be fitted. FK09 fits all pre 1984 Models. FK13 fits all 1985 Models On.

7 Include tray weight in constant load calculation. To provide correct shackle angle, 1985 - 89 automatic 4 Runner Models require the 3rd leaf to be removed to reduce spring rate.

8 Only Suits CS008FA/B. Do not fit to CS009FA/B.

9 When remaining stock of N85, N89, N94, 60032, 60062 and 60064 is exhausted no further product will be available.

10 Refer to Leaf Spring Service Parts section for Centre Bolt selection.

Comments

1 No top mounting bushes supplied use OME3133. OE bushes may be re-used if in good condition.

2 OME661/ FK124 lower shock mount guard is recommended fitment to rear shocks to protect against severe stone pepping encountered on loose road surfaces.

3 Strut Top Hat Kit may be required if original equipment is worn.

4 The OME Upper Control Arm will provide an increase between +2.5 and +3.5 degrees of caster and up to 1.5 degrees of negative camber increase (figures based off an approximate 50mm lift). Please note after fitment of Upper Control Arm a vehicle wheel alignment will be required.

5 Does not suit OE coil.

R	Leaf Spring Front Eye Bolt	FK95	EA	8

Comments

- OMESB117 suits OE Shackle
OMESB118 bush kit suits OME Greasable shackle OMEGS20
- Use OMEU82 when fitting EL130R/ EL131R
Use OMEU83 when fitting EL132R
- Fitment of Driveline Spacer Kit FK113 is recommended to re-align driveline.
- EL48XL will give approximately 30mm extra lift or increase loading capacity at design height by approximately 300kg.
- FK114 only required for vehicles fitted with upgraded auto levelling head lights.
- FK115 Bump Stop Adapter Kit is optional but highly recommended to save fitment time
- FK116 Diff Breather Extension Kit only required for vehicles fitted with Ad Blue (Europe Only - for other markets check vehicle specs)
- FK95 is a recommended fitment if original leaf spring fixed eye nut bolts are in poor condition. Ensure correct torque specifications are used in supplied fitting instructions.
- Use 63178 when adding an EL48XL Extra Leaf to a EL132R Leaf Spring or when carrying constant loads of 800kg and above. EL48XL will give an extra 250-300kg carrying capacity or 20-25mm lift.
- Refer to **Leaf Spring Service Parts** section for Centre Bolt selection.
- Spring selection based on Summit bar. If fitting a Sahara Bar please select down one spring.
- Does not suit OE coil

4 OME665 Lower Shock Mount Stone Guard is **mandatory** fitment to rear shocks to protect against severe stone peppering encountered on loose road surfaces.

5 D38XL will give approximately 12mm extra lift or increase loading capacity at design height by approximately 160kgs.

6 To achieve 20mm lift for bar and winch, OME95PF5 will need to be fitted with 3080 coil.

7 Volkswagen Service Manual quotes that driveshaft bolts are a one use only. It is recommended to replace bolts. Replacement bolts Volkswagen Part Number **N90991102** are to be sourced separately.

Free Camber is measured from top of eye (not centre line) to main leaf at centre bolt. Allow 3mm tolerance either side.

Where two spring rates are listed for one part number the spring is progressive.

* These springs have a 20mm lower 2nd Stage than other springs in the series.

+ These springs have a 20mm higher 2nd stage than other springs in this series.

1. When remaining stock is exhausted no further product will be available.

Free Camber is measured from top of eye (not centre line) to main leaf at centre bolt. Allow 3mm tolerance either side.

Where two spring rates are listed for one part number the spring is progressive.

* These springs have a 20mm lower 2nd Stage than other springs in the series.

1. When remaining stock is exhausted no further product will be available.

SPARE PARTS

Part #	Description
OMESB3009	COIL SPRING ISOLATOR_SUITS N+ & MT-64 (58MM BODY) (Single)

X5K MICRO-ALLOYED SPRING STEEL is a new generation high strength spring steel grade designed to withstand higher operating stresses with superior resistance to sag and improved toughness and corrosion fatigue properties. These properties are enhanced by with lower Carbon than conventional spring steel grades. additions of Silicon, Chromium, Vanadium Nickel along with lower Carbon than conventional spring steel grades.

Where two spring rates are listed for one part number the spring is progressive.

RECOMMENDED FITTING TIMES

COIL SPRINGS SYSTEMS

All Coil Spring Models (Except Land Rovers) Fitment of 4 Shock Absorbers & 4 OME coil springs	2.0 hours
Land Rover All Coil Spring Models Fitment of all the above plus additional time to remove front shock absorber towers	3.0 hours
Torsion Bar Front with Rear Coil Suspension Fitment of 4 Shock Absorbers, 2 OME coil springs & front torsion bar adjustment	2.0 hours
Coil Front with Rear Leaf Suspension Fitment of 4 Shock Absorbers, 2 OME coil springs & 2 OME leaf springs	3.5 hours
Coil Over Front Strut with Rear Coil Suspension Fitment of 2 Shock Absorbers, 2 OME struts & 4 OME coil springs	3.0 hours
Coil over Front Strut with Leaf Rear Springs Fitment of 2 Shock Absorbers, 2 struts, 2 coils & 2 leaf Springs	4.5 hours

LEAF SPRING SYSTEMS

All Leaf spring Models (Except HiLux) Fitment of 4 Shock Absorbers, 4 OME leaf springs, and U bolts and spring bushes as required	5.0 hours
Toyota HiLux All Leaf Spring Models Fitment of all the above plus additional work required to strengthen front spring seat mount	6.0 hours
Front Torsion Bar with Rear Leaf Spring Models Fitment of 4 Shock Absorbers, 2 OME rear leaf springs, U bolts, spring bushes and front torsion bar adjustment	3.0 hours

CARTRIDGE REPLACEMENT

Additional work required to install cartridge per strut	0.5 hours
---	-----------

TORSION BARS

Remove and replace a set of bars (no removal complications)	1.5 hours
Remove and replace a set of bars (removal complications eg. OE splines corroded)	2.5 hours

MISCELLANEOUS

Caster kits	2.0 hours
Steering stabilisers	0.5 hours
Greasable shackles per set of springs	1.0 hours
Greasable pin per set of springs	0.5 hours

FRONT END WHEEL ALIGNMENT ADJUSTMENTS

	JDE PART #
Live axle front end	WHAL
Independent front end	WHALIFS
Independent rear end	WHALIFS

The above fitting times are only a guide, and additional time may be involved due to vehicle modifications or pre-existing accessories which can interfere with the fitment of the suspension.
